[skforged@gmail.com](mailto:skforged@gmail.com)

SK Forged wheels are designed in Denver, Colorado by a small team of enthusiasts who are obsessed with wheels. We grew up on old school JDM builds and strive to fuse this soul with new high end ideas and techniques to bring you a selection of CNC forged wheels that are unique and current, but with a timeless and familiar feeling.

For those with very specific goals in mind, we offer a custom design program and work with our clients to create designs that break the mold while staying harmonious with the build.

Customize *your* dream.

## 2022 CATALOG

Designed and sold from  
Denver, Colorado.

**skforged.com**  
skforged@gmail.com

Each wheel is meticulously designed. We address the goals of the wheel, the platforms it will cater towards and where it will fit in the overall industry. Then sketches are converted to 3D models and massaged until we feel they are absolutely perfect. These models undergo strict virtual stress testing procedures, known as FEA (Finite Element Analysis) to ensure continued integrity during extreme driving conditions.

All of our wheels are CNC machined from 10,000 ton forged aerospace grade 6061-T6 aluminum. This ensures that our final products are some of the strongest wheels in the industry.

SK FORGED - 2022

SK FORGED - 2022

## **MONOBLOCK**

**Shallow Dish**  
16-21"

**Deep Dish**  
18x9 - 18x12, offset down to -39

**Slant lip** deep dish offered on some styles.

## **MULTIPIECE**

Available in many configurations  
from 17" to 22"

Straight, stepped, slant, triple  
step and bubble lips available!

**SK X SO SCARE - VIOLET**

---

**SUGO**

---

**GT2**

---

**INZO**

---

# FUJI

The SK Fuji brings classic racing mesh wheels into the future with a refined but retro inspired design. Aggressive slant lip options are available in both multi-piece and monoblock configurations!

# KADI

The SK Kadi oozes VIP style and is at home on new school and old school builds. A floating centercap takes these to the next level, while monoblock options don't break the bank.

**LOUIE**

---

**ZION**

---

**MONA**

---

**TITAN**

---

## SK X HAUGEN RACING

---

## MASON

---

## NIKA R

---

## NIKA X - LIMITED

---

## ***CUSTOM DESIGN PROGRAM***

---

Want to team up with our designer and our engineers to design your own unique set of wheels? SK Forged offers the most accessible and creative custom wheel design program in the industry!

You will work directly with our designer to create wheels that fit your build perfectly. We involve you in every step of the process, from sketch to 3D model to render! When we are all 100% satisfied with the appearance, your wheels get the same strict FEA testing processes that all our wheels go through before getting manufactured.

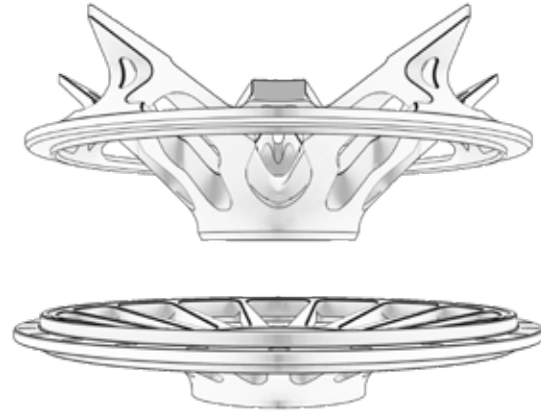

### **SIDE POCKETING**

Spoke side pocketing adds style and decreases weight without degrading strength.

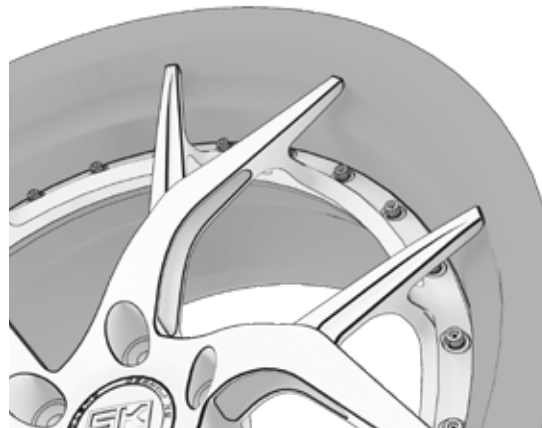

### **CONCAVITY LEVELS**

When it comes to wheel depth, the only limit is your fenders.

### **FLOATING SPOKES**

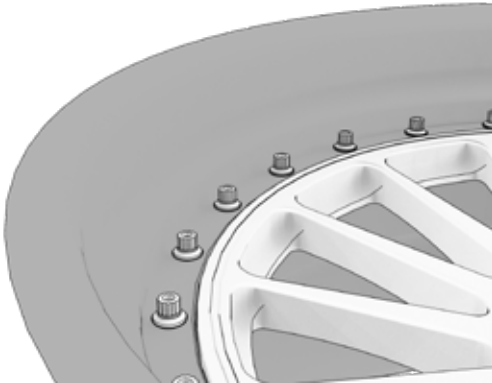

Floating spoke ends are available for higher offset wheels with stepped lips.

## REVERSE MOUNTED FACES

For an old school racing look, wheel faces can be designed to mount behind the lips.

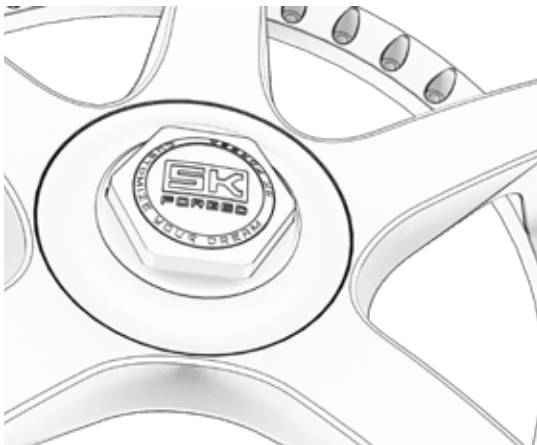

## DIAMOND CUT FACES

The top surface of the face can be diamond cut for a radial polished finish.

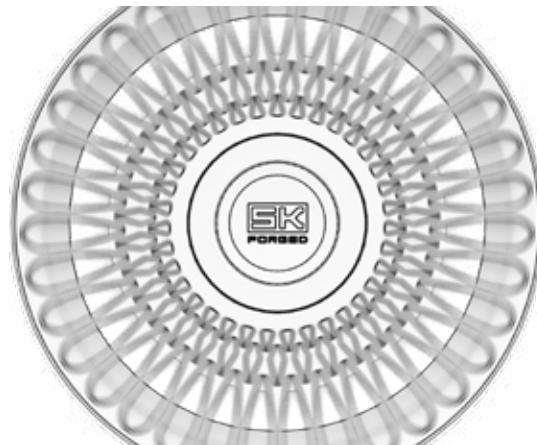

## CUSTOM LUG COVERS

We can design a custom center cap that covers the lug area.

## FLOATING CENTER CAPS

We offer floating lug cover center caps so the logo is always right side up.

## SHALLOW DISH MONOBLOCK

17X6.5	15 to 45
17X7	18 to 50
17X7.5	25 to 55
17X8	30 to 60
17X9	5 to 30
17X9.5	12 to 40
17X10	18 to 50
17X10.5	25 to 55
17X11	30 to 60

18X7.5	0 to 50
18X8	10 to 55
18X8.5	15 to 60
18X9	20 to 65
18X9.5	10 to 55
18X10	15 to 65
18X10.5	20 to 65
18X11	25 to 70

19X8	0 to 50
19X8.5	10 to 55
19X9	32 to 65
19X9.5	40 to 70
19X10	10 to 60
19X10.5	15 to 65
19X11	22 to 70
19X11.5	30 to 75
19X12	35 to 80

20X8	28 to 52
20X8.5	33 to 60
20X9	15 to 55
20X9.5	25 to 75
